

TransTech Systems

Community Outreach and Philanthropy

Did you know that TransTech Systems not only invests a large amount of money in their own research and product development efforts but also devotes time and money into their community? Having strong ties to our community and enabling our management team and staff to take part in this type of outreach creates a positive environment for all concerned. Over the last 10 years, TransTech Systems has worked with or contributed multiple times to many different organizations to collaborate with their missions.

TransTech Systems is proud to participate with the **Albany Chapter Annual Walk for MS**. It is an experience unlike any other; connecting people living with MS and those who care about them. It's a day to come together, to celebrate the progress that's been made, and to show the power of our connections.

TransTech Systems is delighted to support our local youth sports. We provide sponsorships for **Niskayuna Baseball and Softball Leagues**, as well as banner and scoreboard sponsorships.

TransTech Systems is gratified to participate in and support the Annual **Capital Region Chamber of Commerce Golf Classic**. This outing, also known as the Harry Apkarian Memorial Tournament, honors TransTech's founder, and our current President's father. In Harry's memory, TransTech continues to give to the scholarship fund to help our young, entrepreneurial youth in the Capital District.

The list of organizations that TransTech Systems contributes to is ever growing. Some of our most recent are Walk MS, Boy Scouts of America, Niskayuna Baseball & Softball, Capital Region Chamber of Commerce Golf Classic, To Honor and Serve Veterans Day Breakfast, RPI Hockey Golf Classic, The Quest for Grace Foundation, Stratton Air National Guard Base Family Day, and Sage College Athletics.
